| 12/5/2022 | 1.0 | Final Version | Liberty ITS |
| 11/22/2022 | 0.1 | Baseline for VS GUI 1.7.33.1 and patch SD*5.3*827 | Liberty ITS |

# Table of Contents

# Table of Tables

# 1.    Introduction

Department of Veterans Affairs (VA) has a need to improve the efficiencies of the outpatient medical scheduling processes through improved visibility of information. VA has created a comprehensive scheduling solution to modernize the Veterans Health Information Systems and Technology Architecture (VistA) Scheduling (VS) product.

## 1.1.    Purpose

The purpose of this document is to provide a summary of the enhancements and defect corrections that make up VS Graphical User Interface (GUI) Release 1.7.33.1. The release software package is comprised of the following:

- VS GUI application 1.7.33.1
- VistA M patch SD*5.3*827

## 1.2.    Audience

This document targets the administrators and users of the VistA Scheduling package.

# 2.    This Release

Please see Features and Functionality for a summary of the enhancements and defect corrections implemented with VS GUI Release 1.7.33.1 and VistA patch SD*5.3*827.
